

To the Members of the California State Senate:

I am returning Senate Bill 1692 without my signature.

This bill is unnecessary. Currently, students are required to have their vision appraised upon enrollment in elementary school and at least every third year thereafter until the completion of 8th grade. Moreover, schools are required to notify parents if any vision defects are detected in their child's vision screening. An additional notice and questionnaire regarding the child's vision would be redundant.

Therefore, I am unable to sign this measure.

Sincerely,

Arnold Schwarzenegger
